Kiss Loves You DVD

By Gary Hill

Let me say first off, I've got this listed under Kiss, but in a real sense it isn't a Kiss release. It's just that this is such a cool DVD that we need to cover it and since MSJ is organized (at least the archives) by musician name, that's where this belongs. This is definitely Kiss related – in the same way that the Trekkies movies are Star Trek related. This really is a film about Kiss fandom. A documentary this is a lot of fun. It's a great way to bring a new angle to the phenomenon that is Kiss. Are some of these people extreme? Well, extreme, like most things, is in the eye of the beholder. The truth is, you can feel the passion that all of these people have for Kiss. It's a must have for die-hard fans – after all, it's about them. The rest of us can really enjoy it, too. Even if you aren't a Kiss fanatic you can relate because everyone is a fanatic about something.
