

Quivver

Controlled Substance

It's been 5 years since Quivver released his **critically acclaimed Transport 5 mix compilation** on **America's Kinetik Records** and so much has happened since. Not only has he been **constantly touring**, he has **worked with Italian giants, Planet Funk, on their 2nd album which eventually led to him performing at several MTV shows and Live 8 in Rome.** He also had time to **launch his own label Boz Boz.** Here you get **a journey thorough Quivver's 3 hr sets crammed onto 1 CD** and what a journey it is. Quivver's trademark funk sound is prevelant throughout this mix where he gives us previews of up and coming tracks from the man himself. This is definitely worth checking out.
