Blues, Rags & Hollers

This Tony Glover directed 1986 documentary contains performances, interviews and rare archival footage of the acoustic blues trio, as well as '95 and '07 chapter updates, and 9 bonus live performances from '91-'99. It's the story of three notable American music originals, told with characteristic wit, grit and irreverence by those who lived it. **The original film has been updated by Glover with album-by-album postscripts, 10 full-length performances, and more.** It also includes special appearances by Willie Murphy and Bill Hinkley.

"Richly detailed ... powerful."
