# Fall

## Live At The ATP Festival

---

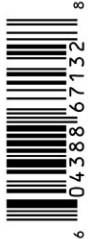

The Fall have always been seen as a cult band and have survived the trends of the music business while other bands come and go...it would seem the Fall are here forever. The Fall also boasted legendary British broadcaster John Peel amongst their fan base and of all the artists that he welcomed to his show the Fall are **allegedly the only band that John Peel had kept all the session recordings in his personal archive.** Live At The ATP Festival was **recorded on the bands tour of USA in 2002.** This recording has been officially **sanctioned by Mark E Smith and features a number of key Fall songs including *Bourgeois Town*, *Ketamine Sun* and *Kick The Can*.**
