---

*One of the band's most impressive releases! New digipak edition of the '02 album, includes 2 bonus tracks!*

---

Final Breath - a strong representative of the German death/thrash conglomerate, delivering a fine mixture of high speed aggression and skillful technique. "Mind Explosion" from 2002 is one of their most impressive releases. The album goes further towards death metal, revealing a far more aggressive and violent side of band's music. Features tracks "The Punisher" and "White Prison" which deliver some quality thrash energy, comparable to best Scandinavian groups such as The Haunted and early At The Gates. New digipak edition includes. 2 bonus tracks taken from "End Of It All" EP, 1997! Digitally remastered using 24-Bit process on golden disc, limited to 2000 copies.
