Starring ALL your favorite mysterious creatures lurking the four corners of the earth. That's right! Loch Ness Monster? CHECK!! Chupacabra? HERE!! Bigfoot? How about a Bigfoot trilogy? YEAH! Not one but THREE tracks about the big hairy biped. These, plus songs about the Jersey Devil, Kraken, the Black Dogs of Britain and Mothman are all given the heavy metal treatment they deserve. This is the heaviest and most metallic album of Impaler's long career. The subject matter is part of everyday consciousness with television shows like Monster Quest and The Lost Tapes airing weekly, along with constant news stories about these prowlers.
