**MVD Announce Upcoming Yardbirds, Clutch DVD Releases**

MVD has announced the upcoming release on DVD of Yardbirds - The Story of and Clutch's Full Fathom Five: Video Field Recordings 2007-2008. Both DVDs are set for November 11th releases.

Yardbirds - The Story of is a documentary covering 1963 until 1968 with tons of original tunes, archive convert footage, interviews with bandmates and associates and behind the scenes look at this influential but short lived Supergroup. Some Eric Clapton footage, lots from Jeff Beck and Jimmy Page. Two live songs with Eric Clapton and The Yardbirds are 'Louise' and 'I Wish You Would' from 1964. Bonus Footage: The Yardbirds with a very young Jimmy Page on guitar from German TV in association with APN/Frankfurt - recorded and filmed live on 31.03.1967. Bonus materials include The Yardbirds with Jimmy Page live in Germany 1964.

Defying the rock music "sub-genre," Clutch return with the band's first ever DVD! Compiled from four locations on the band's 2007/2008 sold out headlining world tour (Boulder, Sayerville, Pittsburgh & Melbourne) these groove-laden live releases prove what the diehard fan base already knows; that Clutch have risen to the top of America's live music pyramid! There's plenty of classic Clutch riffage here including "Escape From the Prison Planet", Texan Book of the Dead, "Elephant Riders," & "Animal Farm." There's also numerous modern heavyweight rock radio & MTV staples like "Electric Worry," "Burning Beard," 10001110101, & "The Mob Goes Wild." Bonus materials include two hidden bonus 'shorts' within the menus on the DVD.
