

ROCK N ROLL EXPERIENCE – August/September 2005

DEVO

Hey Spuds...Devo are back, well sorts, via a new dvd of an old performance! I think the coolest part of this dvd is the bonus tracks that show a very young Devo, pre-pyramid hats, & Black & White! Devo show exactley why they were/are the kings of nerd/synth rock on this dvd & btw..it's also a dual disc release that means you can play it in your dvd player & CD player! "Girl U Want" is the stand out track on the dvd & CD in my opinion & if you love Devo, this is a must have!
