This was a very cool and informative DVD to watch. It basically recounted the career of UFO and had 17 videos on it as well as members of the band talking about their career and members of Def Leppard and Iron Maiden talking about how UFO influenced them. I definitely enjoyed listening to Michael Schenker talking about how he came up with riffs and how stardom frightened him. The band is probably one of the most underrated bands I know of. All in all a great retrospective of the band.
