AUTOUR DU BLUES/CARLTON/FORD/Same (Inakustik) This was a cool release in every way. I am a Carlton fan and he shines on this, though I wish he and the guys did, Smiles and Smiles To Go. Lots of nifty guitar work on this and the guys seem to be having a ton of fun up onstage. The blues/jazz sound will warm the hearts of anybody wanting to kick back and relax and see some guys jam. And there is about 8 guys up there so prepare to be blown away. Info:
