I would say that *Speak A Volcano: Return to Electric Guitar* is the companion DVD to his latest CD *Diabolic Inventions and Seduction For Solo Guitar, Volume I*. The CD covers **Astor Piazzola** pieces only while there are five Piazzola pieces on the DVD, completed by a number of his own compositions.

Speak A Volcano: Return to Electric Guitar features a recent live concert by **Di Meola**. His playing is, as usual, mostly lightning fast and very intense. This is **Di Meola's** trademark and what he has become famous for.

If you are a fan of **Di Meola**, *Speak A Volcano: Return to Electric Guitar* is a document you will want to have. The sound is great and the concert is very well filmed. The performance is what you would expect... A+.
