Aaaahhhh, well finally some professional video footage, pretty good especially for someone who's never seen the band play live, I'll get it as soon as it's out! Solitude Aeternus, one of the best in creating good music.

I hope that CD version makes it to the states, or gets its own release somehow. No songs off the second album though?

Is Edgar Rivera still in the band? Who is playing guitar on the right side? And who is that bass player? It almost looks like the whole band has been revamped.
