Your journey begins with Noel, then his friends and finally the family he found in the community he loved. We watch as they travel deeper behind the conservative walls of society into the dark rooms of perversion.</p> <p style="margin: 0;">Having had trained for 5 years as a Master in Australia, Noel became fast friends with both artists and admirers of those artists. Using his desire and skills at photography, Noel captured some of the most beautiful works of BDSM art with his camera. Always focused on the art form, he played with society's conventions and provoked thought from his admirers.</p> <p style="margin: 0;">In this documentary we see a premier fetish photographer as a man and a father. We see the journey he took and the life he lived before his young tragic death in 2007.</p> <p style="margin: 0;">For more information or to see Noel's work please visit Noel Graydon Photographer .</p> <p style="text-align: center; margin: 10px 0 0 0;">Next ></p> <p style="text-align: left; margin: 0 0 0 0;">[Back]</p> </div>
