This new Blu-ray DVD is a must for anyone who likes Blackalicious or just wants to see one of the world's funkier Hip-Hop acts perform live! Filmed back on the 20th April 2006 at The Showbox Theater in Seattle, USA, this DVD sees Gift Of Gab and Chief Xcel do their thing giving us some killer tracks! With a total of fourteen performances and bonus footage of the 45 Day tour this is sure to please. We also get the music video to 'Deception' and with everything being shot in HDV the quality is purely amazing. Make sure you grab this.
