## Metalmania 2007 DVD

The annual Metalmania festival may well be the biggest, baddest shindig on the European continent, and our friends at Music Video Distributors will be bringing the best of the fest to your home on May 13, 2008. Last year's festival will be released as *Metalmania 2007*, a two-disc, DVD/CD set with an explosive line-up of talent.

The *Metalmania 2007* DVD features performances by metal legends Testament and Sepultura; doom-metal giants Paradise Lost and Entombed; cult bands Vital Remains and Destruction; and up-n-coming bands like Zyklon, Darzamat and Korpiklaani. Shot with an amazing seven cameras, the performances caught on tape are the next best thing to being there. The DVD also includes band biographies and discographies, web links, a photo gallery, festival history, desktop images, and short interviews with all the main stage bands.

The bonus CD focuses on the developing young Polish metal scene, featuring electric performances from bands like Tyr, Carnal, Horrorscope, Witchking, Benediction and others. This incredible two-disc set runs over four hours altogether, and will sport an affordable \$19.95 list price - crazy-cheap, really, for a poppin' metal set of this magnitude!

Labels: festivals, metal
